

Amendments to the Specification

Please replace paragraph 13 of the specification with the following amended paragraph:

[0013] A further embodiment of the invention is shown in Figure 2, which includes a first embodiment of switch 2. In this embodiment, switch 2 may comprise two ~~[[4x2]]~~ 4x1 sub-switches, each adapted to couple one of the receiver chains 7a, 7b to any one of the antennas 1. In a more general setting, in which there are K antennas and N receiver chains, this would be equivalent to using N Kx1 sub-switches. In this arrangement, any receiver chain 7a, 7b may be connected to any one of the antennas 1.
